

Medical Policy Updates Effective 3/1/2009

The MVP Quality Improvement Committee (QIC) approved the policies summarized below during the January meeting. Some of the benefit interpretation policies reflect new technology while others clarify existing benefits. All policy updates are listed online in the Benefits Interpretation Manual (BIM). Visit MVP online at www.mvphealthcare.com. Providers can directly access the online BIM through the References section of the Provider portal. The "Current Updates" page list all policy updates. If you have questions regarding the policies or wish to obtain a paper copy of a policy, contact your Professional Relations representative.

Healthy Practices will continue to inform your office about new and updated policies. MVP encourages your office to look at all of the revisions and updates on a regular basis in the Benefit Interpretation Manual (BIM) located on www.mvphealthcare.com in the **References** section. The **update section will list** new policies and/or policy revisions at least 30 days prior to their effective date.

Note: On 3/1/2009 Prior Authorization was removed from the following procedures/services:

- Age-Related Macular Degeneration Treatments
- Air Medical Transport
- Cardiac Rehabilitation Services
- Cardiac Revascularization/Brachytherapy
- Diagnostic Laparoscopy
- Hearing Aid Services
- Hospice Care
- Intra Uterine Insemination (IUI) ***Note: Advanced infertility drugs will continue to require prior authorization (with the exception of Clomid & HCG)***
- Laser Treatment of Port Wine Stains/Warts/Rosacea
- Low Vision Aids
- Psoriasis Treatment
- Sinus Surgery
- Video EEG Monitoring
- Wound Care Centers (Wound Vac's still require prior authorization E2402)
